# Proposed Changes to Engineering and Development Miscellaneous Fees

Joseph C. Pope, P.E Director, Water and Sanitation County of Ventura Public Works Agency September 2021

- Fees are typically fees associated with one-time services for specific events
  - New Development
  - Misc. Requests
- Fees are non-rate revenues and non-rate related
- Fees are considered unrestricted revenues
- Current fees were revised and approved in 1994
- Proposition 218 is not applicable

- Comprehensive review of the fee structure included:
  - Considering current labor rates and materials costs
  - Evaluation of cost recovery associated with fee events or services
- Staff determined that the current fees do not accurately reflect the actual costs incurred

- Staff recommendations include:
  - Proposing a fee adjustment to make fees current and then increasing 3% every year for the next five budget years commencing July 1, 2022 through July 1, 2026
  - This allows a lower administrative burden and keeps fees current with inflation
  - Adding a new miscellaneous fee:
    - 1. Contractor Shut-Downs

- The recommended fee adjustments are necessary to establish fair and equitable fees and charges
- Staff will review fee adjustments for the subsequent 5-year period returning to the Board with proposed adjustments in 2026
- Presented proposed fees, including descriptions of the fees and the reasons for the changes, to the Citizens' Advisory Committees
- Fees will continue to be posted publicly, at a minimum on our website
