Construction and Demolition (C&D) Debris Reuse and Recycling Program

What is the Construction and Demolition Debris Reuse and Recycling Program?

State law requires the County to divert landfill-bound solid waste material through waste prevention, recycling and re-use. To meet this law, Ventura County Ordinance 4421 requires permit applicants working on construction and/or demolition projects within the County unincorporated area to practice waste prevention; re-use, recycle or salvage; and, least preferred, landfilling solid wastes.

Thresholds for Reporting –

The thresholds for planning and reporting job site waste diversion are:

- A) Residential additions or remodels, regardless of gross floor area or valuation;
- B) Commercial (non-residential) or Industrial building additions or alterations, regardless of gross floor area or valuation;
- C) Demolition of any structure subject to a Building Permit, regardless of cost or valuation;
- D) All New structures, regardless of gross floor area or valuation;
- E) Any Grading work requiring a Permit, regardless of cost, from which Inert Material will be removed from the Project site; or
- F) All Construction Projects awarded within the County pursuant to procurement policy and the competitive bid process mandated by the California Public Contract Code.

Reporting Forms -

For all projects within the unincorporated area of Ventura County meeting or exceeding the above listed thresholds, submission of reporting Forms B and C is required:

Form B: Construction and Demolition Debris Waste Diversion Plan

- ✓ Types and estimated quantities of projected waste;
- ✓ Planned diversion methods;
- ✓ Planned haulers and facilities.

Form C: Construction and Demolition Debris Waste Diversion Report

- ✓ Submitted within 30 days of the end of the project or prior to occupancy;
- ✓ Actual quantities of waste generated;
- ✓ Original weight tickets or receipts to verify solid waste material diversion and/or disposal.

Landfill Diversion Requirement -

Ventura County Ordinance 4421 requires a minimum of 65% (by weight) diversion, through recycling, reusing or salvaging solid waste materials generated at all County unincorporated area project sites meeting or exceeding the reporting thresholds shown on the other side of this flier.

Authorized Haulers -

The following companies are the only haulers maintaining either residential or commercial franchise service agreements with the County of Ventura:

- American Resource Recovery, Inc.
- Sea/Sue, Inc. (dba Anderson Rubbish Disposal)
- E.J. Harrison & Sons, Inc.
- G.I. Industries (Waste Management)
- H. Cattle Co.
- Hobbs & Son, Inc.
- J & L Hauling & Disposal, Inc.
- JT's Rubbish & Recycle, LLC
- JTZ, Inc. (dba Zaccaro Roll-Off)
- Marborg Industries, Inc.
- Mountainside Disposal, Inc.
- Newbury Disposal Co.
- Peach Hill Soils
- Santa Clara Valley Disposal Co.
