

Construction & Demolition Debris Recycling Program Announcement

New Program Updates Underway

Effective October 20, 2022:

REPORTING FORMS B&C
TEMPORARILY SUSPENDED

Landfill Diversion Requirement

In compliance with the California Green Building Code, Ventura County Ordinance 4590 requires a minimum of 65% (by weight) diversion of C&D debris, through reuse, recycling or salvage.

For More Information

<https://www.vcpublicworks.org/wsd/iwmd/construction/>

- Projects generating construction and demolition (C&D) debris are still required to reuse, recycle, and salvage. Bins may be inspected.
- To comply with the County's Ordinance, project applicants must self haul to a sorting facility, use an Authorized Solid Waste Collector listed on this flyer, or reuse/salvage usable materials.
- Form B and C requirements will be temporarily removed from the Building & Safety Checklist.
- All reporting requirements specified in County-issued contracts remain unchanged during this temporary suspension
- New program reporting forms will be announced in 2023.

Salvage and Reuse

If a project involves demolition or remodeling, builders are urged to salvage as much reusable material as possible.
