Subject: **Upcoming Sewer Improvements in Your Neighborhood**

Dear Resident,

This letter is to inform you that the Ventura County Water Works District No. 1 (District) will be performing sewer system improvements in your neighborhood as part of our ongoing efforts to maintain reliable sewer service and replace aging infrastructure.

Project Location: Arroyo Simi Creek, between Leta Yancy Road and Spring Road

Construction Schedule: Work is anticipated to begin on July 31, 2026, and continue through November 2026. Typical working hours will be 7:00 AM to 5:00 PM, Monday through Friday.

What to Expect During Construction

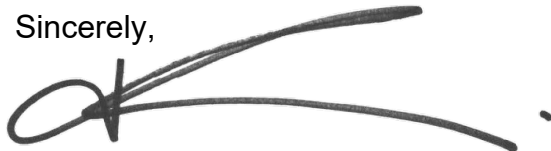

- **Noise and Dust:** Construction equipment will generate typical noise and dust associated with underground utility work.
- **Safety:** Please use caution if traveling near the work zone and follow all posted signage.

No action is required on the part of the customer. Your sewer system should continue functioning normally during the construction process.

If you have any questions or concerns during construction, please contact Water and Sanitation at 805-378-3000.

We appreciate your patience and cooperation as we complete these important improvements to the community's sewer infrastructure.

Sincerely,

Paul Chan, PE, CEM
Director- Water and Sanitation

cc: Ventura County Water and Sanitation Department
