

# Food Waste Collection Begins May 1!

*All residents must comply with California's new organics recycling law, Senate Bill (SB) 1383. SB 1383 aims to reduce methane emissions by diverting organic waste from landfills by establishing statewide recycling requirements for cities and counties.*

Organic waste collected curbside is primarily comprised of ALL food scraps, yard waste, and landscape and pruning waste, which can all go into your organic/yard waste cart now.

Residents served by County of Ventura contract collectors should receive notices in late April on food waste collection.

**FREE kitchen food waste collection pails** available soon for any unincorporated area, single family resident, subscribing to bundled collection service. Put your order in now; pails delivered to your home when shipment arrives. Multi-family complexes being served soon.

***Food waste can now be added to your organic/yard waste cart! See special instructions in the graphic below.***
