VENTURA COUNTY WATERWORKS DISTRICT NO. 1 (SANITATION)

The Ventura County Waterworks District (District) No. 1 provides water and sanitation services to the City of Moorpark and contiguous areas to the north and west of the city limit. The Moorpark Water Reclamation Facility is located along Highway 118 and currently:

- Processes approximately 2.0 million gallons per day of wastewater for the Moorpark community
- Produces 1.5 million gallons per day of recycled water for irrigation to the treatment plant, Moorpark Country Club, Rustic Canyon Golf Course, and some agricultural customers
- Distributes recycled water through a system consisting of 7 miles of pipeline, 1 booster pump station, and 1.5 million gallon storage reservoir

WHY ARE RATE ADJUSTMENTS REQUIRED?

Annually, the District evaluates the need for rate adjustments based on:

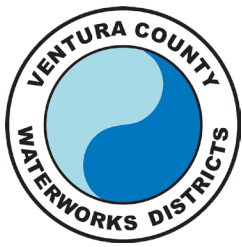

- Increase in power costs of approximately 3%
- Increase in labor costs of approximately 5%
- Increasing operation and maintenance costs
- Funding for planned capital projects

ONGOING IMPROVEMENT PROJECTS

The recycled water purple pipeline and booster pump station deliver recycled water to the Rustic Canyon Golf Course.
